

EASTERN MICHIGAN UNIVERSITY

MTTC History and Math Online Test Preparation

Hit the right books!

If your career as a teacher hinges on passing the Michigan Test for Teacher Certification (MTTC) in History or Math – tests that have proven to be difficult to prepare for – the Eastern Michigan University Department of History and Department of Math are here to help. Many of those who failed these tests studied long and hard but studied the wrong topics. EMU history, math and education faculty want to see you pass the MTTC, and have designed an **online** test preparation program that will help you pull the right books off the shelf. The online test prep includes:

- Hundreds of multiple choice, diagnostic questions that will identify your strong and weak points.
- References keyed to each question that will direct you to the resources you need to close the gaps in your knowledge.

Get it right the first time

Don't underestimate the importance of being prepared for the MTTC. Failing the test can postpone your teaching career for months. Not only will you lose the cost of the MTTC, you'll lose the wages you would have earned if you were teaching.

The online history or math test preparation costs \$49. You can use it as often as you need. The targeted study it provides may help boost your test score and ensure that after all the hard work you've put into receiving your degree, you'll be certified to enter the classroom without delay.
